

Highlights from the Mayor

Well here we are again with the end of the October approaching and you can see by some of our Town resident's lawn decorations throughout the community that Halloween is right around the corner.

Trick or Treating Hours continue to be 5:00 p.m. to 8:00 p.m. this year and we ask residents that they have their front doorstep light on to indicate if they are handing out treats. In addition, it's also asked that those who choose not to participate in evenings activities be respected for their choices and that current AHS restrictions be followed.

Earlier in the day, the Elite Theatre will be showing a free movie sponsored by the Town of St. Paul FCSS Department and following that be sure to visit the Recreation Centre for Safe & Sweet where FCSS will be handing out treats between 5:00 p.m. to 7:00 p.m.

Above all, please use caution when driving through the community on October 31. Our children are excited with the magic of Halloween and that excitement can be distracting. Please reduce speeds and double check when exiting any driveway and/or back alley. Our days are shorter and low lighting combined with lack of visibility requires us to be extra cautious for our little ones.

And speaking about lighting, should you see ATCO in your neighborhood, they have begun our LED Conversion on our Town owned streetlights within the community. This conversion will allow for reduced energy consumption, reduced maintenance costs, increased fixture lifespan all while providing better lighting quality at a slight reduction in fees for the Town. It is such a feeling of accomplishment to see our Town progressing and it is anticipated that this project will be completed near the end of November.

In the days to come, I look forward to both new and familiar faces around our Council table and thank each and every resident that took the time to come out and vote at the Municipal Election.

I look forward to sharing again with you in November's Town Talk.

Mayor Miller
