

Highlights from the Mayor

March. In like a lion, out like a lamb. We've got the first part down and here's hoping that lamb shows up. We can see our days are already getting longer and with that, spring like temperatures will come. We will see our community come alive much like after any winter. Families will be out for walks, bicycles will begin to be brought out from winter storage and outdoor spaces will be visited. But before we get to experience all of that we need to get through the Spring snowmelt first. One can imagine what this year's runoff will look like exactly but with all the accumulated snow it's pretty safe to say that a substantial amount of water will flow through our storm system this Spring.

As we move into a new normal yet again with the lifting of restrictions it's hard not to have our focus overseas with the tragic events unfolding in Ukraine. Right now, more than ever, I would like to take this opportunity to acknowledge our Ukrainian community and let them know that we stand with Ukraine and pray for peace each day for their country. As you pass through Town you'll notice the blue and yellow banners hung on the streetlights. These banners are a show of support for the Country of Ukraine and our Ukrainian community during these difficult times and on behalf of Town Council, I would like to thank those involved for providing the banners to be displayed.

One space I encourage everyone to visit is the Ukrainian Internment monument located at the east end of Lagasse Park. With the Ukrainian flag waving above and various statues and plaques on display this area of the park may provide a place for our community to visit and show support. Our parks staff have removed the snow in this area to make it accessible to all.

Speaking of snow removal, what a winter it's been. Back alley snow removal is currently underway and scheduled to wrap up toward the end of this week.

As you all may know, the Town and County of St. Paul have partnered on a North Area Structure Plan which is well underway. The North ASP will address long-term planning and development of 588.4 hectares of land located adjacent to the northern end of the Town. This area includes both lands within the boundary of the Town and lands within the boundary of the County. We will be having a Joint Council Meeting on March 17th being hosted by ISL Engineering to update our Council's regarding the North Area Structure Plan. If you wish to see a map of the plan area, please visit our website.
