

COMMUNITY INPUT

Regional Multipurpose Leisure Centre Feasibility Study

There are several ways to provide your input toward the feasibility study, including online surveys, Digital Community Input Discussions, an In-person Community Input Open House, and a digital interactive map. We are also pleased to offer an open offer to speak with the consultant team.

Digital Community Input Discussions will be held on November 29 from 6:30pm to 8:00pm and November 30 from 3:00pm to 4:30pm. The In-person Community Input Open House will be held on November 23 from 5:30pm to 8:00pm at the St. Paul Recreation Centre

Visit www.stpaul.ca to access surveys and provide input.
